by Martha Buelst and Connie Plowman

34 CliftonStrengths® Themes Action Suggestion Lists

Be intentional about developing your talents and strengths!

Strengths start with talents! Becoming aware of your talents, naming your talents, and seeing how your talents work in your life are the first steps of developing and using your strengths.

Once you name and claim your talents, the next step is to intentionally invest in your talents to develop strengths. As you practice and use your talents and strengths, you will further develop your strengths.

Gallup offers action suggestions for each CliftonStrengths Talent Theme. Action suggestions are included in your Gallup user pages and in the books listed below.
